THIRTY.TWO CHOLERA DEATHS

On the Steamer Scandia, Which Arrived Yesterday... The Epidemic on the Decrease in Hamburg.

Quarantine, S. I., 1:45 A. M., Sept. 10. There were thirty-two deaths on the Scandia, which arrived this morning at

1:15 o'clock. This morning Dr. Jenkins received the following from Swineburn Island over the cable, signed by Dr. By-Have visited the Scandit this evening, and find the following: Total number of

passengers, 1,086-cabin, 28; steerage, 981; crew, 77. On the voyage there were 32 deaths, of which there were 29 steerage, I cabin and 2 among the crew, I am now starting in our tng to carry seven cases stricken with the plague to the hospital here on Swinebura Island." THE COMPANY'S FINAL COUP. The Scandia sailed from Hamburg on

August 25th. It had been variously re-ported that she had about 500 steerage paramers, and it had been expected that she would be the last coup for the Ham-burg-American Company. As the re-port to night shows, the worst fears are more than realized. No such mortality as that which Captain Kopfi has been compe ed to report has therefore been re-corded during the present reign of the

plague.
The Hamburg-American Company now has six slips under the ban of health officers, viz. The Moravia, Rugia, Kormannia, Wieland, Stubbenhuk and The terrible report to-night cerminly

Dr. Walser was sent to Lower Quarantine this morning to in-cestigate the Weiland, which came in fiving the regulation flag, the usual sig of for inspection by the health officer. It is now said the death of the two children on the Guion liner Wyoming inst right was caused by the fumes of burning sulphur, which was being used to disinfect the steamer.

CHOLERA DEATHS IN RUSSIA. The Cold Weather Checking the Plague. From Other Places.

St. Petersburg, Sept. 9.-The cold weather is subduing the cholera plague

throughout Russia, except the Ukraine In consequence of cholera on the right bank of the Dreiper, the steamers plying on that river are infected with the dis-ease, and cases of sickness and death are numerous among the passengers.

Throughout Russia on Tuesday there

were, according to official reports, 3,761 new cases and 1,431 deaths against 4,604 new cases and 2.540 deaths on Monday. This is a decrease from Monday of 843 new cases and 1.109 deaths. In St. Petersburg Thursday the new cases numbered 103, 16 less than on Wednesday, and 31 deaths, a decrease of 8. Of the patients in the hospitals of St. Petrsburg,

82 were discharged yesterday as cured.

Hamburg, Sept. 9.—The efficial reports state that the deaths from cholera yesterday numbered 215, and there were 393 new cases. This indicates a decrease from the official figures for Wednesday

of 100 deaths and 262 new cases.

Berlin, Sept. 9.—The Nationalist Congress, which was to have been held at Manheim has been postponed on account

of the cholera. Madrid, Sept. 9.—The Spanish authorities have ordered all vessels arriving

from London to be quarartined.

Havre, Sept. 9.—The sum of 85,000 francs has been subsqribed in two days for the relief of cholera victims, and of those who have been thrown out of em-ployment in consequence of obstruction

of business on account of cholera.

Montreal, Sept. 9.—The HamburgAmerican Packet Company will test the authority of the provincial government to prohibit the landing in Quebec of ves-sels from infected ports. The boats of sels from infected ports. The boats of the company are coming to this port de-spite the prohibition. MR. FRICKS WOULD-BE SLAYER. He Says He Will Not Stand More Than a Ten Years' Sentence.

self if you get more than ten years? Was asked.

"Well, you can draw your own conclusions. I believe there is nothing beyond this life, and while life under some circumstances is desirable, there is not enough in it for me to spend a lifetime in prison with the prospects of a few years of liberty after my sentence has expired. I have no fears for the hereafter, for I believe there is none. I have studied this question, and am fully determined. I fully realize the consequences of my attempt on the life of Mr. Frick. I did so when I attempted to kill him, and was prepared to suffer the consequences, had prepared to suffer the consequences, had he died. I prefer to hang rather than spend a lifetime in prison. I know I could get thirty years, but it is either ten years with me. or, well, you will see." Barkman coolly talks of his crime, and

expresses only one regret—that his mission failed. He does not give Mr. Frick credit for the coolness and nerve claimed for him when he attempted his life. He said: "He was the worst scared man I ever saw. He believed I meant to

kill him, as I certainly did, and he had a right to be scared, as he certainly was," In all his talk Berkman steadily refuses to speak of any one else in connec-tion with the assault, and shoulders the whole responsibility.

The Norfolk and Western Extension.

Philadelphia, Sept. 9.—By October 1st the Norfolk and Western Railroad Com-pany will have completed its line across pany will have completed its line across the mountains, and when this is done it will become a factor among the trunk lines of the country. The distance yet to be constructed is thirteen miles, from Pondmouth to Gayton, in West Virgin'a. This distance has been graded and the roadbed levelled, and when the connections are made the Norfolk and Western Compuny will operate over 1.000 miles of road. The new road will be a great factor in regard to the transportation of grain and livestock for export, as it will virtually be a through line from Chicago to the seaboard. All the bridges are built, and the laying of thirteen miles of reils is all that is required to complete the road.

CHURCH STATISTICS.

Interesting Information About the Metho. dists and Congregationalists.

Washington, Sept. 9 .- A bulletin issued by the Census Office gives interesting historical, as well as statistical, information as to the two great religious bodies known as the "Methodist Epis-copal Church, South" and the "Congre-

gationalists. gationalists."

The Methodist Episcopal Church, South, was organized at a convention held at Louisville, Ky., in 1845. The cause of separation was the slavery question. The somewhat indefinite line of division between the North and the of division between the North and the South agreed upon the plan of separation was not adhered to by both sides. During the late war the Northern Church followed the Northern armies into the South and after the restoration to peace gradually established churches all over the South. The Southern Church has not extended itself far to the northward except on the Pacific coast, where it has conferences, including, best'es California, the States of Oregon, Washington, Idaho and Montana. It also has congregations in Indiana and Minois. It is the strongest in Texas, where its membership is about 140,000; Georgia comes next with 135,000; Tennessee third with 120,000; North Carolina fourth with 114,000, and Alabama £ta with 88,000.

with 88,000.

The Southern Church suffered much more heavily than the Northern Church during the war. It lost 113,000 white members, as against less than 10 000 lost in the Northern branch.

lost in the Northern branch.

The Southern church reorganized its shattered forces at the close of the war, and in a few years was again in full tide of prosperity. Its growth in the last decade has been rapid.

The Methodist Episcopal Church South has the same articles of religion, the same system of conference, appual and general

system of conference, annual and general, and substantially the same discipline as the Methodist Episcopal Church. It dif-fers from the latter in admitting lay dele-gates (four from each district) to the an-nual conferences; in making lay equal to ministerial representation in the general conference, in giving the bishops a modified veto over legislation which they may deem unconstitutional, and in abolishing the probationary term of six months for candidates for membership. Its colored membership, which before the war was 200,000, now forms a separate organiza-

The statistics of the Congregational de-nomination show that Massachusetts, where the Pilgrims and Puritans estab-lished churches of the Congregational denomination early in the Seventeenth cen-tury, is still the stronghold of the Congregriconalists. It has in the State nearly 120,000 members. In Connecti-cut, which comes second, there are 59,-000, and in New York 45,000.

Bound, Gagged and Robbed,

Uniontown, Pa., Sept. 9.—Last night about 10:30 o'clock six members of the Cooley gang entered the house of John A. Waiters, near Masontown, this county, when all were in bed, and after tying Mr. Walters and Jacob Cove and locking Mrs. Walters in her room they began the search for money. Finding none, they lit a lamp and held it to the

feet of their prisoners, also drawing a razer and declaring they would cut their victim's throats if they did not tell where the money was. The marauders finally compelled the Walters to give up their gold, which amounted to nearly \$200 the most of which belonged to Mrs. Walters. Besides the money a fine watch, a revolver and a lot of fine clothing were taken. The house was ransacked The gang finally departed, leaving their victims thed hand and foot and garged. All are old people and were unable to offer any resistance.

DOUBLE EXECUTION.

Two Negro Murderers Hanged in South Carolina-A Dual Respite.

Spartanburg, S. C., Sept. 9 .- Special .-A quadruple hanging scheduled for today was cut down to a double by the action of the Governor Tillman, in respiting two of the condemned persons. John Williams (colored), who murdered Mayor Henneman and Milbrey Brown, Anyor Henneman and Milorey Brown, a young colored virago, who coolly poisoned a white child, and who after being sentenced to hang swore that her only regret was that she had not poisoned the whole family. The two negroes hanged to-day were: Adam Foster, who killed his rival, and Andy Jeffries, who murdered a white man.

A CURIOUS SIGHT.

The sight around the jail was a curious one. About one thousand negroes from all parts of the country were huddled around the jail discussing the hangings. There had been rumors that they would make some demonstrations, and Sheriff Nichols had a half dozen port holes cut in the enclosure, and at each hole guards with Winchesters stationed. If there had been any designs on the part of the negroes, this effectually deterred them. The two men were hanged simultaneously. Williams and the girl were not appraised of the postponement of their fate until it was time to take up the death march. They retime to take up the death march. They received the news without uttering a word.

ON THE SCAFFOLD. On the scaffold Jeffries was stolid and indifferent, while Foster appeared nervous. The former was pronounced dead from a broken neck in seventeen minutes. It took fifteen minutes to decide that Foster was dead, and that he died from stragulation. During the morning Jeffries made a statement to his minister, who remarked to the press: "One of two things is certain—Jeffries either went to hell with a lie on his lips or the witnesses swore falsely rgainst him."

THE GOVERNOR CRITICIZED.

There is considerable comment here on Governor Tillman's action in respiting Williams and the Brown girl. The Citizen says that robody here would sign a petition to show Williams mercy, and whether or not there be any ground for it many of them say that there is politics at the root of the Governor's action. History of the Crimes.

Seldom in the annals of crime has a more diabolical act been committed than the killing of the little baby of Mrs. W. C. Carpenter, of Gaffney City, on the 27th of June by Milbry Brown, the fifteen-year-old colored servant.

The girl was out with Mrs. Carpenter and vented her spleen by perpetrating this most horrible deed. Said the Judge in his charge: "You sought out a helpless infant, sleeping on its bed. You slipped up in not knowing the fatal effect that would follow."

The child died in the greatest agony. At first the girl denied her guilt, but when confronted with indisputable evidences of it she confessed having given it carbolic acid, alleging as her reason

A MAYOR KILLED BY A NEGRO.

On the 1st of last October the people of Spartanburg were shocked to hear that Mayor Henneman had been killed by a negro named John Williams. It was Sunday afternoon, and the Mayor was walking around town when he saw Williams beating his wife.

He told the negro to stop or he would send for a policeman and have him put in the guard-house. Williams told the Mayor that it was none of his business. and that he must get away from his place. As the Mayor was walking out of the yard, Williams shot him through the back, and as he fell over he shot him a second time.

A Light Tender Electrocuted.

Pittsburg, Sept. 9.—At 12:45 o'clock this morning Police Officer Bowley found the lifeless body of John Hoxwinter at the base of an electric light pole at the corner of Fifth avenue and Stevenson streets. Hoxwinter was a light tender in the employ of the Alleghany County Light Company. He had ascended the pole to trim the light and had evidently been electrocuted. His left hand and arm were terrible burned. The ton of his were sterribly burned. The top of his head had been crushed in by his fall from the forty-five foot pole. Hoxwinter was single.
